MGT-460

PLANNING FOR DISASTER DEBRIS MANAGEMENT

Join us for our Planning for Debris Management course. Learn to identify debris management components and the best planning practices using existing plan examples and case studies. Equip yourself with the materials and skills needed to effectively and efficiently plan for debris management in order to protect critical infrastructure, minimize health and safety threats, and efficiently bring a community back to its pre-disaster state. Become empowered to create a pre-disaster debris management plan for your own community.
