

Join us for our Social Media Tools and Technique course and acquire the knowledge and skills needed to use social media tools and techniques for intermediate-level messaging, strategy, and increased situational awareness. Build upon your existing knowledge with more in-depth training in the use of strategy, tools, and messaging techniques in the use of social media. Learn valuable concepts beyond the implementation of the most popular tools and strategies and of how to expand your organization's social media presence in various platforms to different audiences, in partnership with other agencies and organizations. Better your understanding of data mining and crowd-sourcing techniques through practical activities and discuss potential uses for data visualization
