AWR-228

COMMUNITY RESILIENCE

Join us for our Community Resilience course and learn about the meaningful actions that you and your community can take to enhance resilience to natural hazards and of the opportunities available to incorporate these actions into professional practice. Increase your understanding about community resilience (CR) and how it can benefit hazard planning, including practices of how community resilience can be enhanced at the local level. Learn about resources and tools that can assist to identify the various components of risk and strategies for integrating community resilience into existing plans and programs.
